PERSONAL PROFILE

A highly motivated DevOps Engineer with a wealth of knowledge relating to cloud infrastructure development, automation, and service delivery, with expertise in AWS, Kubernetes, Terraform, CI/CD, and Linux. Well-versed in collaborating with cross-functional teams, contributing to architectural discussions, and demonstrating a deep understanding of how to leverage computing, storage, network, and managed services to develop scalable and secure cloud solutions. Extensive experience in actively addressing intricate technical challenges and customizing cloud solutions to align with specific business requirements, with a profound understanding of automation, observability, and cloud security to drive operational excellence.

QUALIFICATIONS

- **AWS Certified Solutions Architect Associate (SAA-C03)** **2023**
- **Terraform Associate (003)** – HashiCorp **2023**
- **Linux Essentials** – Linux Professional Institute **2023**
- **Network Technician & Junior Cybersecurity Analyst** – Cisco **2023**
- **Degree in Telecommunications Engineering** – Miguel Hernández University (Spain) **2016**

EXPERTISE, KEY SKILLS & COMPETENCIES

- Leading the delivery of technology initiatives with tangible commercial benefits, and supporting development of cloud/platform architecture to provide appropriate services.
- Hands-on experience in supporting, automating, and optimizing cloud solution deployments, leveraging configuration management, CI/CD, and DevOps processes.
- Knowledgeable in AWS, Linux, Terraform, Docker, Kubernetes, Python, GitLab, Git, Cloud Computing, Security, Distributed Computing, Application Stacks, Grafana, and Shell Scripting.
- Well-versed in delivering services within agreed SLAs with deep knowledge of processes involved in managing complex incidents, requests, and problems.
- Coordinating technical projects through full lifecycles following industry standards and best practices.

CAREER TO DATE

Senior DevOps Engineer – X-Tention

Feb 2024 – Present

- Developing CI/CD pipelines to automate software delivery and improve deployment speed.
- Managing AWS infrastructure, implementing best practices for cost optimization and security.
- Automating infrastructure provisioning using Terraform and Helm for Kubernetes applications.
- Enhancing observability by integrating Prometheus, Grafana, and Fluent Bit for log monitoring.
- Optimising MACH Integration IPaaS for high uptime and efficiency in cloud deployments.

IT Engineer – Amazon

Mar 2022 – Feb 2024

- Collaborated with international engineering teams to effectively resolve complex customer issues within the AWS cloud environment, notably during critical events and incidents.
- Provided coaching and mentoring to new hires with a focus on AWS best practices and Linux proficiency, actively contributing to training sessions and leading projects to enhance support processes tailored to AWS services.
- Applied advanced troubleshooting techniques to deliver tailored solutions for global customers in cloud computing, addressing issues related to applications, servers and networks.

EARLIER CAREER SUMMARY

Senior IT Engineer – chapmanbdsp

Mar 2018 – Mar 2022

IT Engineer – Fluid Design Ltd

Aug 2017 – Mar 2018
